

Field Definitions and Product Information:

Common Fields:

GS Cert - Certified under Green Seal, Inc.

EC Cert - Certified under Environmental Choice Program.

Meets Stnd - Product ingredients meet the OGS "Meets Standard", but the product is not certified by Green Seal or Environmental Choice.

Other – Document new information.

Preferred Source/State Contract – Listed as preferred source or state contract.

Standard – Description of certification standard used to approve product.

Details – Provides additional information like the manufacturer's web address.

Cleaning Product Specific:

General Purpose - General all purpose cleaner

Bath - Cleaning products specific to restroom/bathrooms

Glass - Glass cleaners

Carpet - Carpet cleaners

Fragrance -

Dilution Ratio - Optimal dilution for product as specified by manufacturer

GS37 Edition - Denotes which version of the GS-37 standard the product was certified under. 2006 represents the previous GS-37 standard issued on February 27, 2006. 2008 represent the currently revised GS-37 standard issued on August 29, 2008.

Vacuum Specific:

Vacuum Type - Describes the type of vacuum: Back Pack, Canister, Central System, Commercial Backpack, Commercial Upright, Commercial Wide Area, Household & Commercial Canister, Household & Commercial Upright, Household and Commercial Upright, Large Area Vacuum, Rider Sweeper, Upright, Upright Large Area Vacuum, Upright, Large Area, Walk Behind, and Wide Area Vacuum.

Carpet Style – Lists the carpet style the vacuum cleaner is approved for use. "All" represents all conventional carpet styles and "low pile" represents carpet typically found in commercial or institutional buildings, such as corporate offices, schools and healthcare facilities.

SOA/GL Standard: Lists the Carpet and Rug Institute's Seal of Approval/Green Label Standard. There are three (3) levels in this standard which are **Gold**, **Silver** and **Bronze**.

SOA/GL Gold Level: This vacuum cleaner must meet tougher standards for soil removal and indoor air quality. Gold Level is the highest performance standard in the Seal of Approval/Green Label category of vacuums. This vacuum is approved for use on all conventional carpet styles and for use on carpet with a low pile, or surface texture, measuring approximately a quarter inch or less. The vacuums on this list are tested under commercial use standards. (Some of the vacuums listed are tested under both commercial and household standards.)

SOA/GL Silver Level: This vacuum cleaner must meet tougher standards for soil removal and indoor air quality. Silver Level is the 2nd highest performance standard in the Seal of Approval/Green Label category of vacuums. This vacuum is approved for use on all conventional carpet styles and for use on carpet with a low pile, or surface texture, measuring approximately a quarter inch or less. The vacuums on this list are tested under commercial use standards. (Some of the vacuums listed are tested under both commercial and household standards.)

SOA/GL Bronze Level: This vacuum cleaner must meet tougher standards for soil removal and indoor air quality. Bronze Level is the 3rd highest performance standard in the Seal of Approval/Green Label category of vacuums. This vacuum is approved for use on all conventional carpet styles and for use on carpet with a low pile, or surface texture, measuring approximately a quarter inch or less. The vacuums on this list are tested under commercial use standards. (Some of the vacuums listed are tested under both commercial and household standards.)

Last Revised and Additional Information:

Cleaning Products:

This list includes certified products as listed by Green Seal thru October 28, 2008 (However, there is missing GS Product Info for 04-18-08 thru 05-29-08. GS is looking into this gap in product info and will provide the related product info to OGS by Mid-November 2008.) This list also includes certified products as listed by Environmental Choice thru April 29, 2008. Additional certified products may be listed on the websites for Green Seal and/or Environmental Choice

Vacuum:

This list includes Green Label certified vacuum cleaners and Seal of Approval/Green Label certified vacuum cleaners as listed on June 30, 2008. Additional certified products may be listed on the Carpet and Rug Institute (CRI) website at: <http://www.carpet-rug.org/about-cri/cri-signature-programs/vacuum-list.cfm> and/or http://www.carpet-rug.org/commercial-customers/cleaning-and-maintenance/seal-of-approval-products/soa-gl-vacuum-list.cfm?product_type=0&product_usage=0&manuf_id=0

Floor Finish:

This list includes products submitted as of September 16, 2008. Additional products may be listed as new submittals are received.

Floor Finish Stripper:

This list includes products submitted as of October 23, 2008. Additional products may be listed as new submittals are received.

Hand Soap:

This list includes certified products as listed by Green Seal thru October 28, 2008 (However, there is missing GS Product Info for 04-18-08 thru 05-29-08. GS is looking into this gap in product info and will provide the related product info to OGS by Mid-November 2008.) This list also includes certified products as listed by Environmental Choice thru April 29, 2008 and Meets Standard thru April 23, 2008. Additional certified products may be listed on the websites for Green Seal or Environmental Choice.
